

COMPREHENSIVE PAIN CENTERS, a subsidiary of

Lehigh Valley Pain Management, Inc., pioneered the development of pain management in the Lehigh Valley. As the most experienced pain management practice in the area, we offer a diverse array of treatment options, both traditional and innovative. We offer help and hope to those who experience one or more of these conditions:

Headaches

Back and Neck pain

Facial pain

Pain due to osteoporosis and arthritis

Cancer related pain

Reflex Sympathetic Dystrophy (Complex

Regional Pain Syndrome Types I and II)

Shingles (post-herpetic neuralgia)

Industrial and accidental injuries

Spinal spasticity from cerebral palsy, multiple

sclerosis, and spinal cord injury

Myofascial pain syndrome/fibromyalgia

Phantom limb pain

The **Comprehensive Pain Center's** staff consists of Board Certified specialists in Anesthesiology and Pain Management. Our physicians have over 20 years of experience treating many different types of pain. The doctors team with rehabilitation nurses, occupational and physical therapists, exercise physiologists, dieticians, and family counselors to develop a comprehensive plan tailored especially for each patient.

After scheduling your first visit, we ask that you arrive at Comprehensive Pain Centers 15 minutes before your appointment so you can complete our patient information form. One of our pain management specialists will do a thorough examination. Our physicians will discuss your plan of treatment with you and answer your questions. We monitor our patient's progress through a series of follow-up appointments to meet our patients' needs. Our doctors actively refer patients to behavior modification programs to help them cope with the emotions of chronic pain.

Locations . . .

Comprehensive Pain Centers' main office is located in Allentown on the same medical complex as **Westfield Hospital, Westfield Surgery Center and Tilghman Medical Center**, and just a ¼ mile from the PA Turnpike entrance and Routes 309 and 22. One of the many advantages of **Comprehensive Pain Centers** is the satellite offices located throughout PA and New Jersey. For our patient's convenience, our staff travels to different areas to serve our patients who cannot make the trip to our Allentown office.

Main office:

4825 Tilghman Street, Allentown, Pa 18104

In Pennsylvania: Emmaus, East Stroudsburg, Huntingdon Valley, Lehigh, Pottsville, Reading

In New Jersey: Edison

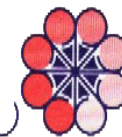

For all of your scheduling, medication and general requests, or if you are interested in the days and times we are at our satellite offices, then please call **1-800-366-9078**.

Our Mission Statement ...

Persistent pain, whatever its origin, can have debilitating effect on a person's life. The emotional frustrations associated with pain can be as devastating as the physical discomfort. Our mission is to offer comprehensive, interdisciplinary team pain management, rehabilitation, education, and home health services at several locations.

At **Comprehensive Pain Centers**, we practice a continuum of care, beginning with an in-depth evaluation and assessment. We then formulate the best combination of simultaneous treatment strategies to help patients manage their pain.

About our Staff ...

Yasin N. Khan, M.D., Medical Director of Comprehensive Pain Centers and CEO of Westfield Hospital, is a graduate of Hahnemann University School of Medicine, Philadelphia. Dr. Khan completed his residency at New York Hospital/Cornell University Medical Center, New York. He completed a fellowship in Pain Management at Sloan-Kettering Memorial Hospital, NY. He served as Director of the Acute Pain Service at Albert Einstein Medical Center-Northern Division, Philadelphia and as Medical Director of Pain Management at Lehigh Valley Hospital Center, Allentown. Dr. Khan is board certified in Anesthesiology and Pain Management.

Elizabeth Khan, M.D. is a graduate of Medical College of Pennsylvania in Philadelphia. Dr. Khan completed her residency in Family Practice at Montgomery Hospital, a Temple affiliate. She then completed a year of specialized training at Sloan-Kettering Memorial Hospital, New York, in Pain Management. Dr. Elizabeth Khan is board certified in Pain Management and Family Practice and is also a licensed physical therapist.

Don Ko, M.D. graduated from the University of Michigan with a medical degree from Wayne State University in Detroit, Michigan. He completed his residency training in Physical Medicine and Rehabilitation at the Sinai Hospital/Detroit Medical Center. With keen interest in pain management, Dr. Ko also completed a clinical fellowship in Interventional Pain Management with the Lehigh Valley Pain Management group. Dr. Ko is board certified in Physical Medicine and Rehabilitation, and Pain Management.

Our **Comprehensive Pain Center** also has licensed Physician Assistants, including **Jessica Bugay Clipp**, **Andrea Cope**, and **Seth Vaughn** to serve our patient's every need.

Comprehensive Pain Centers have a highly trained staff comprised of efficient nurses, X-Ray technicians, and friendly office personnel to make your visit convenient, comfortable and Pain-Free. The office diligently works to get NEW pain patients seen within one week of the referring doctors' request.
